

## Spark Signs & Graphics - Boosting Business

### Pitt Center for Vaccine Research

The University of Pittsburgh's Center for Vaccine Research asked for our help to brand the entrances on two of their floors at the Biomedical Science Tower in Oakland. We worked closely with our clients to bring their design to life and installed two custom-made lobby signs.

We fabricated the signs by routing the letters "The Center for Vaccine Research" out of  $\frac{1}{4}$ " matte black PVC and placing them in three separate rows. Each row was mounted off the wall at a different depth thus creating a "stepped" effect that was unique and eye-catching. The total dimension of the lobby signs was 58" X 26.5", the perfect size to create an impact and to brand the CVR Department.

Check out some of our other work from February

### Shenango on the Green - Exterior Signage

[Shenango on the Green](#), nestled in beautiful New Wilmington, provides a peaceful and comfortable senior living environment to its residents. We helped them with rebranding by replacing a monument sign, several identification, and other assorted exterior signs.

### Omega Federal Credit Union - Lighted Sign

[Omega FCU](#) remodeled its Ross Township location and we were happy to provide a feature sign at the entrance as well as a directional sign. The lighted entrance sign included both front and halo (back) lighting to create an eye-catching look.

### Trinity Automated Solutions - Lobby Sign

[Trinity Automated Solutions](#) looked to us to create two signs that were placed at important interior locations. We utilized raised lettering on brushed aluminum panels and included round standoff covers in the corners to add dimension.

### Paramount Enterprises - Post & Panel Sign

We installed this sharp looking double-sided post and panel sign for Ambridge-based [Paramount Enterprises](#). Paramount is an economic development firm that focuses on Business Incubation and Main Street Revitalization.

## Oxford Athletic Club Interior Signage

A good portion of the [Oxford Athletic Club](#) was remodeled and our client wanted the signage to match the updates they were making to the club. We supplied a variety of functional, yet unique, interior business signs and graphics during the re-branding process. These signs included room identification, wayfinding, and window graphics. To learn more, read our [blog](#), and to view signs from the entire Oxford project to date, check out the project album on our [Flickr!](#)
