

Spark Signs & Graphics - Boosting Business

Exterior Signage at NexTier Center in Butler

We recently completed a large exterior signage project for NexTier Bank in Butler. The project included two sets of tall individual illuminated channel letters, various drive-thru signage, and other entrance and identification signage.

The channel letters shown here are 40" tall and the entire logo spans 35 feet. For the entrance sign (below, left), we removed the old Morgan Center sign but retained the core cabinet and fabricated a new NexTier Bank face to fit nicely into the space. Lastly, the drive-thru sign (below, right) was one of several that were updated and placed at the entrance of the drive-thru lane.

The NexTier Center will become the central hub for NexTier Bank in 2019.

Check out some of our other work from May

Chemistry Marketing Agency - Wall Mural

We recently installed two really cool wall murals for our friends at [Chemistry!](#) Our client supplied really creative ideas, we printed them, and then applied the vinyl to the walls, cutting in and around plumbing fixtures. See our [Flickr](#) photostream for more photos of both walls.

Wildwood Sports Complex - Wall Mural

Wall mural graphics can be creative and provide direction. Both were at play in this mural we installed at [Wildwood Sports Complex](#) in Allison Park. The new sports complex at the former Wildwood Highlands features multi-sport simulators and sports leagues for all ages.

Pinnacle Accounting & Finance - Lobby Sign

This lobby sign for [Pinnacle Accounting & Finance](#) in Scott Township was the finishing touch to a renovated and freshly painted lobby. The sign was constructed out of 1/2" black acrylic and a brushed aluminum face, and was placed off the wall to create a dimensional effect.

Carpenter Technology - Multiple Signs

We modified the signage of past client LPW when they merged with another company to become [Carpenter Technology](#). We created a new building sign, door graphics and wall decals along with other identification signage. See our [Flickr](#) for more photos.

Interior Graphics - Corporate Office

We also do work for other sign companies. One recent example are these vibrant graphics that we placed in the corporate office of a globally-known, Fortune 200 company. Wall murals and 'quote'

graphics help brand an office as well as add visual interest, and cube window film helps adds privacy in today's open-office environment.
