Regarding insurance:

Please read and sign if you wish your insurance company(s) to be filed on your behalf.

All down-payment and insurance payment amounts provided are estimates only. They are based on the information provided over the phone by your insurance carrier(s). We provided this benefit to our patients as a courtesy.

Most dental insurance request (and some require) a preauthorization be done in writing prior to surgery. We are happy to provide this service to confirm the approval of your surgery and to confirm the accuracy of our down- payment calculations. Depending on your insurance, this can take 3 – 5 weeks.

***Your insurance will not guarantee coverage or benefits over the phone and we in turn are unable to guarantee any amounts quoted.***

Down – payments are required at the time of surgery. We offer monthly financing through Care Credit and can provide you with their application information for your convenience.

***All balances incurred are ultimately the responsibility of the patient/guarantor regardless of insurance.***
