## LASH AFTERCARE

### BETWEEN FILLS

- ❖ If a lash turned, use your lash wand to correct it
- ❖ Use oil-free products around the area.
- ❖ Do not use eyelash curlers with your extensions or mascara, you will not need them.
- ❖ Clean your lashes regularly to prevent oil and dirt build up.
- ❖ Let lashes air dry and brush them regularly.

### BEFORE FILL

- ❖ Please remove any makeup from eye area, and come with fresh clean lashes before your appointment.
- ❖ Brush lashes thoroughly and if you would like to change anything let me know!
