

THE WHEATON GROUP

PARTNER COMPANIES

Wheaton | Bekins | Stevens | Arpin:

Four great brands are the key to our industry-leading approach to customer service.

Partnership

In February 2012, The Wheaton Group announced that it would acquire Bekins Van Lines, a moving business that was well known and highly valued. Seven years later, in February 2019, The Wheaton Group added the Stevens Worldwide Van Lines brand to the fold through an acquisition of the trusted, family-owned company. 2020 allowed Wheaton to welcome Arpin Van Lines to its family.

The partnership among the four brands -- Wheaton World Wide Moving, Bekins Van Lines, Stevens Worldwide Van Lines and Arpin Van Lines -- represents a tremendous value to customers and potential customers of all four brands.

While Wheaton, Bekins, Stevens and Arpin remain separate in many ways, our agent network and corporate offices both offer the same commitment to quality, safety and customer service. The synergy among the brands lies in the operational efficiencies brought to bear by utilizing the quality drivers and equipment of each of the four fleets.

All drivers and equipment used by the brands met the stringent quality requirements of The Wheaton Group, the Federal Motor Carrier Safety Administration (FMCSA) and the Department of Transportation (DOT).

There are approximately 450 agents in the The Wheaton Group network, which serves virtually all locations in the continental United States and many parts of Canada. Approximately 225 agents represent the Wheaton brand; another 125 represent the Bekins brand; approximately 50 agents represent the Stevens brand; and 50 agents represent the Arpin brand.
